

While you work to serve and protect the safety of others, let SNiPER® work for you.

The Ideal Biocide for Law Enforcement

Uniquely Designed to Target Pathogens

The Future of Intelligent Cleaning Technology

Maintain a healthy work environment

In every situation

You are responsible for your own safety. In every situation, there is a need for SNI^{PER}®'s ideal protection. Whether it is to clean vomit, urine or feces, disinfect equipment, vehicles and gear or deodorize K-9 officers, close quarters, and body odors, SNI^{PER}® has your back. SNI^{PER}® is powerful, effective and efficient. Safe to clean, disinfect and deodorize in everyday situations for Law Enforcement.

The SNI^{PER}® Technology

- **A New Era of Disinfection - target organisms cannot build up a resistance to SNI^{PER}® due to its unique formulation. There is no potential for immunity to SNI^{PER}®'s disinfecting action.**
- **SNI^{PER}® breaks apart the molecular structure of smoke, fumes and many chemical vapors.**
- **SNI^{PER}® is not harmful to you, your equipment or your environment.**
- **Does not produce VOCs or carcinogens like traditional chemical disinfectants**
- **Does not poison to kill rather it disrupts vital structural components of micro-organisms**
- **It has an EPA category IV for all routes of exposure - Safest rating allowed**

SNI^{PER}® is on duty around the clock

Clean - Disinfect - Deodorize:

- Ballistic Body Armor
- Helmets
- Gloves
- Uniforms
- Boots
- Masks
- Gear
- Shields

While you fight for the safety of others, let SNIKER® fight for you.

SNIKER® is effective against:

- Blood
- Bodily Fluids
- Vomit
- Biohazards
- Urine
- Smoke and Fumes
- Feces

With the steady climb in microbial infections, Officers are under increased pressure to ensure that their vehicles and equipment are clean and safe. Achieving this goal is becoming more difficult due to growing ineffectiveness of traditional disinfectants. The SNIKER® technology cleans, disinfects and deodorizes. It destroys VOC's and gasses such as formaldehyde, ammonia, methane, hydrogen sulfide, mercaptans, smoke, gasoline vapors and many other harmful or nuisance compounds by disassembling

the molecular structure. SNIKER®'s action does not leave harmful or toxic by products, only a clean and healthy environment free of pathogens and harmful vapors.

Ideal Protection with SNIKER® - Ideal Biocide

RTU Products:

- 3oz Pump Spray Bottle - 12 per case
- 16oz Trigger Spray Bottle - 12 p/cs
- 32oz Trigger Spray Bottle - 12 p/cs
- 1 Gal Jug - 4 per case
- 2.5 Gal Jug - 2 per case
- 55 Gal Drum GREEN Disinfectant
- Atomizing Sprayers

SNIKER® has been approved to safely clean Ballistic Body Armor vests, carriers, and panels without causing harm or damaging specialized material in any way.
